“hoop” is a LED luminaire that stands out by its monumental and architectural design. The technologies that are used are adapted to the simplicity of the ring-shaped luminaire. A flexible LED strip is mounted invisibly inside the steel ring creating a diffuse and soft illumination.

Hoop is a real eye catcher that functions -in its highest capacity- as general lighting as well.

Hoop is finished in a matte white paint, available in 16W, 45W or 90W and can also be equipped with RGB full-color LED's including a handy remote control.
