SHARP

SUSPENSION

SPECIFICATION SHEET

A soft volume with a strong personality emphasized by the red power cable. Sharp is a hanging luminaire for diffuse lighting. It is made from epoxy polyester powder coated aluminium and it is equipped with a frosted polyethylene diffuser, a high efficiency LED light source and driver. The lamp is suspended with galvanized steel cables (not included) with quick-adjust regulation devices. Its degree of protection against the penetration of dust, solid objects and liquids is IP40.
