

LEX™

RECESSED

TYPE:

PROJECT NAME:

RECESSED

Lex is a line of lights featuring reduced glare, thanks to the light source slightly moved back into the body, and a wide lighting angle. Its distinctive design makes it possible to use it to create interesting arrangements of the ceiling. The lens diffuses light at the angle of 60° ensuring a perfect patch of light. The product line offers a choice of two diameters and as many as four lighting output options.

General lighting. It will work perfectly at establishments such as clubs, galleries, and hotels, but also as lighting for the office and home.
